Art Gallery Website Documentation

Title: Art Gallery Website

Author: Creative Ted

Date: September 2025

1. Introduction

The Art Gallery Website is a fully responsive online platform designed to showcase artworks, artists, and exhibitions. It provides users with an intuitive and visually appealing experience while allowing gallery owners to share their story, mission, and contact information.

2. Objectives

- Showcase artworks and artists in a user-friendly interface.

- Provide gallery visitors with information about exhibitions, goals, and history.

- Allow visitors to contact the gallery easily and subscribe to newsletters.

3. Scope

The website consists of five main pages:

1. Home Page – Introduction to the gallery and featured artworks.

2. Gallery Page – Displays artworks with a short description of the gallery.

3. Artists Page – Highlights artists with rotating image slideshows and biographies.

4. About Page – Explains the mission, history, and goals of the gallery.

5. Contact Page – Interactive contact form, FAQ section, and newsletter signup.

4. Features

- Responsive Navigation Bar.

- Rotating Artist Images on the artist page.

- Interactive Contact Form.

- FAQ Section.

- Newsletter Signup.

5. Technologies Used

- HTML5 for structure.

- CSS3 for styling and responsive design.

- JavaScript for interactivity (menu toggle, slideshows, form submission).

6. Folder Structure

```
project-folder/
├── index.html
├── gallery.html
├── artists.html
├── about.html
├── contact.html
├── CSS/
│   └── style.css
├── Javascript/
│   └── main.js
├── images/
│   └── (artwork images)
└── README.md
```

7. Screenshots

(Add screenshots of each page.)

8. Deployment

The website is deployed on GitHub Pages / Netlify / Vercel.

Live URL: https://your-live-url-here

9. Testing

- Tested on Chrome, Firefox, and Edge for responsiveness.

- Contact form tested for input validation.

- Menu toggle tested on mobile view.

10. Future Improvements

- Add a backend for real form submissions and newsletter subscriptions.

- Include a CMS to update artworks dynamically.

- Add user accounts for artists.

11. Conclusion

The Art Gallery Website successfully showcases artworks and artists in an engaging and accessible way. It offers essential information about the gallery's goals and mission while allowing visitors to contact the gallery and stay updated via newsletters.
